Currently

Digital Marketing & Web Developer

During the years I've worked, I have successfully completed in the change of website project and planned digital marketing goals. I have successfully developed to a system app with third party Api(s) integration from statistics website. I have completely realized about seo related with google analysis. I have learnt how google crawl and how seo make the ranking high. Because of a little office employee, I did handle for these IT sectors.

Education

University of Computer Studies, Yangon

Hlawgar

Second Year

I had left from university at 2015 for personal reason.

NCC Education (UK)

KMD
2015

Level 4 Dipolma in Computing Sceince

Yangon University of Distance Education

Thanhlyin

Third Year

I have learnt the main major like English.

Projects

I had developed 2 cms web and 3 web apps in this two experience year. You could learn more (greenseason-travel.com, peacehousetravel.com, myanmarrivercruises.com, airmyanmar.com, myanmarballoon.com). I did handle all the projects only. Before my handle, four of these websites are just statistics website. After my responsibilities, all the projects (new keywords adding, meta title changing, meta description and end user familiar keywords analysis) have successfully done
